CAREER OBJECTIVE

MCA student and aspiring Software Developer with a strong foundation in Java, JavaScript, Data Structures and Algorithms, web development, SQL, and database management. Hands-on project experience in developing interactive frontend web applications using HTML, CSS, and JavaScript. Seeking an entry-level Software Developer position to apply technical proficiency, programming capabilities, and problem-solving skills while contributing to high-quality software solutions.

EDUCATION

Course	Institute	University / Board	Year	Score
Master of Computer Applications (MCA)	Lakshmi Narain College of Technology	Rajiv Gandhi Proudyogiki Vishwavidyalaya	Pursuing	-
B.Sc. in Computer Science	Shri Rewa Gurjar Bal Niketan	Devi Ahilya Vishwavidyalaya	2025	7.9 CGPA
Higher Secondary (12th)	Aacharya Shri Ram Gurukul	M.P. Board	2022	72.8%
Secondary (10th)	Education Way Academy	M.P. Board	2020	89.66%

TECHNICAL SKILLS

Programming Languages: Java, C
Data Structures & Algorithms: Arrays, Nested Loops, Conditional Statements and Loops, Basic Problem Solving
Object-Oriented Programming: OOPs Fundamentals
Web Technologies: HTML5, CSS3, JavaScript
Database: SQL, DBMS
Core CS Fundamentals: Operating Systems (OS), Computer Networks (CN)
Tools & Platforms: Git, GitHub, VS Code

INTERNSHIP EXPERIENCE

Cisco AICTE Virtual Internship Program 2026 – Artificial Intelligence | Cisco Networking Academy
(June–August 2026)

- Successfully completed a virtual internship in Artificial Intelligence.
- Gained exposure to AI concepts and their real-world applications.

PROJECTS

Interactive MCQ Quiz Web App - *HTML* | *CSS* | *JavaScript*

- Developed a multi-screen quiz application featuring real-time input validation and dynamic question rendering.
- Implemented countdown timer functionality and automated score calculation with instant pass/fail evaluation.

Amazon-Inspired E-commerce Frontend - *HTML* | *CSS*

- Engineered a fully responsive e-commerce frontend interface incorporating modern shopping layouts and product sections.
- Utilized advanced CSS Flexbox and Grid to design seamless multi-tier navigation and structured footers.

Rock Paper Scissors Game - *HTML* | *CSS* | *JavaScript*

- Created an engaging browser-based game featuring automated computer logic and real-time score tracking.
- Implemented robust event handling and responsive styling for smooth user experience across devices.
